I have the Shimano Alivio Brake / Shifter all in one setup the shifter mechanism was taken apart in hopes to repair a shifting problem and well to be honest there are just TOO many parts in there to be sure i got it back to together properly. I have looked at all the exploded diagrams specific to my setup ST-MC10

I am trying to repair and get my ST CT15 derailleurs to shift. They won't. I'm looking for the document to service, or at least to take apart the Shimano ST-CT15 Front and back derailleurs. They are not shifting properly. The rear doesn't shift but for maybe low two gears.
