Toyota ECU Diagnostic Codes - Club4AG

I just got headers for my 92Celica with a 4afe FI motor. I was just looking under the hood and couldn't locate my O2 sensor. My headers have whats suppose to be the OEM location but I can't find the Sensor on my stockers. From what info I have found, seems that there are some of this type of motor without the O2 sensor. I know my way around an engine so I think I know I would have found it.

Can't find the O2 sensor for Toyota 4afe motor? | Yahoo ...

What you need to do is pull up the carpet on the passenger side next to the center console. That will expose a harness that go through the floor bord on the center tunnel. That harness would be the o2 sensor hanress, I believe it's 4 wires (signal, ground, and 2 for heater). You need to cut the signal wires and wire the box in between.
